Thank you for purchasing this Convector Heater.
We recommend that you spend some time reading these instructions in order to fully understand all the operational features it offers.

PRODUCT SPECIFICATION

Product Name: Convector Heater
Model: DL01S
Material: Steel and PP
Weight: 2kg
Rated Power Input: 2000 W
Rated Voltage: 220-240V ~ 50/60Hz
Power Settings: 3
Product Dimensions: 538 x 200 x 384 mm

IMPORTANT INFORMATION

Before connecting the unit to the mains, please carry out a visual inspection to ensure it is in good condition and has not been damaged during transit.

The appliance must be always placed on a flat and stable surface.

SAFETY INSTRUCTIONS

- **Do not** use the heater unless the feet are correctly attached.
- Ensure the power supply matches the rating label and that the socket is properly earthed.
- Keep the power cord away from hot surfaces.
- **Warning: Do not** use this heater near a bath, shower, or swimming pool.
- **Warning: Do not** cover the heater to avoid overheating.
- For indoor use only.
- **Do not** place on deep-pile carpets.
- Always position the heater on a firm, level surface.
- Keep away from curtains, furniture, and other flammable materials.

- **Do not** position directly below a socket outlet.
- **Do not** insert objects into the air grilles or heat outlets.
- **Do not** use in areas with flammable liquids or fumes.
- Always unplug before moving the heater.
- If the power cord is damaged, it must be replaced by a qualified person.
- This appliance is not intended for use by persons (including children) with reduced capabilities unless supervised.
- Children must be supervised and should not play with the appliance.
- Keep combustible materials such as furniture, bedding, paper, clothing, and curtains away from the heater.
- Always disconnect the heater from the mains when not in use or before cleaning.
- Remove the plug by gripping it firmly. **Do not** pull the cable.
- Keep the heater clean and ensure that no objects enter the ventilation or exhaust openings, as this may cause electric shock, fire, or damage.
- This appliance is intended for household use only and must not be used for any other purpose.

CAUTION: Some parts of this product can become very hot and cause burns. Do not touch hot surfaces. Particular attention has to be given where children and vulnerable people are present.

ASSEMBLY INSTRUCTIONS

Before using the heater, the feet (supplied separately in the carton) must be fitted:

1. Turn the heater upside down on a soft, stable surface.
2. Attach the feet to the base using the 4 self-tapping screws provided.
3. Ensure the feet are securely fixed into the correct positions at the bottom ends of the heater side panels.

Do not operate the heater without the feet properly installed.

OPERATING INSTRUCTIONS

First Use

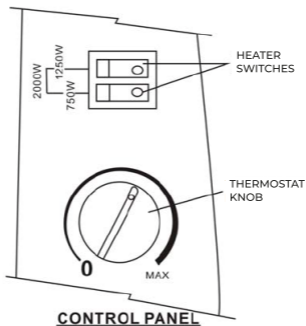

It is normal for the heater to emit a slight smell or fumes when first switched on or after long periods of storage. This will disappear after a short time.

Using the heater

1. Place the heater in a suitable location following all safety guidance.
2. Plug the heater into an appropriate socket.
3. Turn the thermostat control fully clockwise to the maximum setting.
4. Switch on the heating elements using the rocker switches on the side panel:
 - The switches will illuminate when active.
 - For maximum heat output, turn on both switches.

Temperature control

- Once the desired room temperature is reached, slowly turn the thermostat anti-clockwise until a click is heard and the indicator lights switch off.
- The heater will then automatically maintain the set temperature by cycling on and off.

CLEANING INSTRUCTIONS

- Always unplug the heater and allow it to cool before cleaning.
- Wipe the exterior with a damp cloth, then dry with a soft cloth.
- Do not use abrasive cleaners or detergents.
- Do not allow water to enter the heater.

STORAGE INSTRUCTIONS

When not in use for extended periods:

- Store the heater in a clean, dry place.
- Protect it from dust.
