Thank you for purchasing this Fan Heater.

We recommend that you spend some time reading these instructions in order to fully understand all the operational features it offers.

PRODUCT SPECIFICATION

Product Name: Fan Heater

Model: LQ901

Material: PP

Rated Power Input: 2000 W

Rated Voltage: 220-240V ~ 50/60Hz

Power Settings: 2

Product Dimensions: 250 x 120 x 260 mm

IMPORTANT INFORMATION

Before connecting the unit to the mains, please carry out a visual inspection to ensure it is in good condition and has not been damaged during transit.

OPERATING ENVIRONMENT

- Indoor use only.
- Do not use outdoors.
- Avoid environments with flammable or explosive gases.
- Keep away from heat sources (e.g. stoves) and direct sunlight.
- Never block air inlet or outlet vents.

SAFETY INSTRUCTIONS

- Read all instructions before use and follow them carefully.
- Place the heater on a stable, level surface to prevent it from tipping over.
- **Do not** use the heater on a shared socket. Always use a dedicated high-power outlet.
- **Do not** use in dusty or damp environments. Keep away from flammable substances such as petrol, paint, or solvents.
- Ensure that air inlet and outlet vents are not obstructed.
- Keep the heater at least 1.5 metres away from water sources or open flames.
- Clean only with a slightly damp cloth. **Do not** immerse in water.
- **Do not** position the heater directly below a socket outlet.
- Never cover the heater or block ventilation openings.
- **Do not** insert objects into the heater.
- In case of malfunction, contact an authorised service centre.
- **Do not** use near a bath, shower, or swimming pool.
- If the power cord is damaged, it must be replaced by a qualified technician.
- If the heater overheats, switch off and unplug. Allow it to cool before reuse.
- **Do not** use if the appliance has been dropped or shows signs of damage.
- Suitable for children aged 8+ only under supervision.
- Children must not play with the appliance.

WARNING: Do not use this heater in small rooms occupied by persons unable to leave without assistance, unless supervised.

WARNING: Keep all flammable materials (e.g. curtains, bedding) at least 1 metre away from the air outlet.

WARNING: Do not cover the heater to avoid overheating.

WARNING: Do not place the heater below or in front of a socket outlet.

CAUTION: Some parts of this product can become very hot and cause burns. Do not touch hot surfaces.

OPERATING INSTRUCTIONS

Parts description

1. Thermostat control.
2. Power indicator light.
3. Heat selector switch.
4. Air outlet grille.

Before use

1. Turn the thermostat control to the minimum setting.
2. Set the heat selector switch to "O" (OFF).

Starting the heater

1. Plug the appliance into a suitable socket.
2. Turn the thermostat to the maximum setting.
3. Select the desired mode using the heat selector:
 - "☼" (Fan Only): Cool air
 - "I": Warm air (1000 W)
 - "II": Hot air (2000 W)
 - "O": Off

Temperature control

1. Set the thermostat to maximum.
2. Once the room reaches a comfortable temperature:
 - Slowly turn the thermostat anti-clockwise until the heater switches off.
3. The heater will now maintain this temperature automatically.

Adjust as needed:

- Turn clockwise → warmer
- Turn anti-clockwise → cooler

MAINTENANCE

- Always unplug the heater and allow it to cool for at least 10 minutes before cleaning.
- **Do not** use water directly on the appliance.
- Wipe with a soft cloth and mild detergent if necessary.
- **Do not** use solvents such as petrol or chemicals.
- Ensure the unit is completely dry before reuse or storage.

STORAGE INSTRUCTIONS

- Unplug and store in a dust-free environment.
- Ideally store in original packaging.
- Keep in a dry place.
